## **Life Settlement Awareness Month® Covers Broker, Provider Changes**

*Special Event on the Changing Roles in the Industry*

SAN DIEGO--([BUSINESS WIRE](#))--As the life settlement industry has evolved, so have the roles of the key players – brokers and providers.

For the first time ever, during Life Settlement Awareness Month (LSAM)® a panel will be held to cover the changing roles of the key industry players, as well as to provide an outlook on industry changes to come.

On Wednesday, June 16 at 10:30 a.m. Pacific/1:30 p.m. Eastern, a broker panel geared toward the life settlement distribution audience and third-party vendors will cover the changing roles of the broker and provider, how brokers will play a role in the industry moving forward and a market outlook.

“We want to provide a nice forum for key brokers to discuss the industry as they see it, the types of assets actually transacting in the market, their perspective on the evolving role of the broker and where they see it in the future,” said Larry Simon, president, Life Settlement Solutions, Inc.

Subsequent LSAM® panels will be geared toward the qualified purchaser audience and will cover market trends, portfolios, securitization, and the impact of life settlement allocation on overall portfolios.

LSAM®, presented by Life Settlement Solutions, is one of the industry’s largest educational efforts and has been held each June since 2006. It is designed to bring timely industry education to financial and insurance professionals, and qualified institutional participants of all experience levels.
