Life Settlement Solutions Celebrates Five Years of Industry Education

Leading Life Settlement Provider Hosting Fifth Annual Life Settlement Awareness Month®

SAN DIEGO--([BUSINESS WIRE](#))--The life settlement industry has grown exponentially and evolved substantially over the past decade, but not without the help of educational efforts of industry advocates.

Life Settlement Solutions, Inc. – a San Diego-based leading life settlement provider – is celebrating the fifth year of hosting one of the industry’s largest educational efforts – Life Settlement Awareness Month® (LSAM®). The month-long educational event, held each June since 2006, is designed to bring timely industry education to financial and insurance professionals, and qualified institutional participants of all experience levels.

“To date we have provided education through LSAM to more than 10,000 professionals actively involved in the industry or looking to become involved in life settlements,” said Larry Simon, president and CEO, Life Settlement Solutions, Inc. “Every year studies show that the main barrier to market entry is the lack of education. It is our goal to break down this barrier by providing free educational opportunities to the marketplace, thus advancing the industry forward.”
